Refresher Course(s)

One Day Respond to Fire and Hazmat Emergency Refresher Course	CERT Team who had undergone ERT training, from premises: -PIB (High Risk Installations Buildings) -Petroleum & flammable material store (>5 metric tonnes)	Please send an inquiry to enquiry @ acerts.org.sg, for group training.
CERT Re-Certification Programme for Tier 1 P&FM	CERT Team who had undergone ERT training, from T1 P&FM premises	Please send an inquiry to enquiry @ acerts.org.sg, for group training.

A-CERTS TRAINING & EDUCATION

The A-CERTS arm of Training & Education is represented by approved training providers who are experienced local fire & safety professionals, fire service instructors and emergency response specialists and engineers with the best local practices in mind.

A-CERTS is an Approved Training Organisation (ATO) under Workforce Singapore (WSG) to deliver the Workforce Skills.

ENHANCE YOUR CERT COMPETENCY WITH

Since the gazette of the Fire Safety (Petroleum & Flammable Materials) Regulations in 2005 and introduction of Company Emergency Response Team (CERT) requirements, a significant number of people in the workplaces have been trained to handle fire & other workplace emergencies.

Timely intervention within the first few minutes of an incident is critical and often determined the outcome of the whole incident. A high number of workplace emergencies were effectively brought by under control by CERT before SCDF arrival. This has heightened the awareness within the business communities in recognizing the importance of having an effective Emergency Response Team on site.

With the growing pool of trained emergency responders across all industries, an idea was mooted to establish a network and a platform for this unique community to come together and share their experiences.

IT IS ALSO WITH THIS AIM THAT A-CERTS WILL CONTINUALLY IDENTIFY RELEVANT TRAINING AND SERVICES DELIVERED BY THE TEAM OF ACCREDITED PROVIDERS THAT WILL IMPROVE AND ENHANCE THE PREPAREDNESS OF CERT THROUGH DEVELOPMENT.

A-CERTS is established with support from the Singapore Civil Defence Force (SCDF). The Mission of A-CERTS is to promote continual development, professionalism and excellence in the field of Emergency Response & Crisis Management. A-CERTS will work with the relevant Government Agencies in the development and enhancement of programs and standards relating to emergency response. It will also create a platform to share valuable information & professional development opportunities for members.

EXPERIENCE YOU CAN COUNT ON

As our trainers and assessors are also experienced CERT members, the training curriculums developed are informative and relevant to meet the specific needs of your organisation in the Singapore context. Our training curriculum is tailored to ensure that they meet the needs of the organisation's CERT structure and resources.

All the trainings have been tested and proven over the years on thousands of CERT members.

Delivered and facilitated by professional instructors and specialists who are strongly committed, passionate and experienced in assisting organisations in training and enhancing the competencies of their Company Emergency Response Teams. Participants truly learnt from the best in the area of emergency response and crisis management in Singapore.

CERT -The First Defence to Emergencies

The importance of a competent Company Emergency Response Team (CERT) can never be under looked as they are your first defence to emergencies to protect the lives of your organisation. Only learning from the true practitioners can improve the competencies of your CERT members. Our instructors besides being experienced practitioners, are also locals with global exposure so that while they are able to deliver in the local lingo and understand the local regulations and incidents right to the nib, they are also able to share the best benchmarks of other countries.

OUR AREAS OF EXPERTISE

WSQ Respond to Fire & Hazmat Emergency (3 Day)

Accredited by SCDF: 30 CPD Points

Accredited by SSG: WSQ module [Course Ref Number: TGS-2013501294; Course Code: PI-CP-105E-1]

Course Overview & Aim

(Recommended Course for RT and SIC (Tier 1 premises which store more than 5 metric tonnes of Petroleum & Flammable Materials.)

This course is designed to enable a person to function as a member of an emergency response team in order to prepare and respond to fire and Hazmat emergencies.

Course Content

- Fire science
- Chemical and fuel hazards
- The CERT Team
- Emergency Response Plan
- Communications during emergencies
- Fire prevention
- Fire protection systems
- Types & use of PPE, SCBA, firefighting & Hazmat equipment
- Principles of search and rescue
- Casualty handling

Target Audience

CERT Team from Premises:

PIB (High Risk Installations Buildings)

Petroleum & flammable material (> 5 metric tonnes)

It is targeted at individuals with operational responsibilities from all sectors such as:

- Chemical Production
- Plant Equipment Maintenance
- Waste Management
- Energy Management
- Plant Construction
- Water Management
- Building Management

Course Details

Venue	PCS Fire Training Ground, Jurong Island		
Duration	3 Days (8.30am to 6.00pm)/24 Hours		
Capacity	16 participants per class		
Course Assessment	Practical Performance with Written Test		
Pre-requisites:	Compulsory declaration of health using Medical Form A for Trainees (forms to be submitted prior to training)		
Certification	Participants will be awarded a downloadable e-Statement of Attainment by SSG upon passing the assessment		
Course Fees	S\$960 per pax (A-CERTS Members only); S\$1065 per pax (non-A-CERTS members). Prices are all inclusive of taxes, training materials, lunch and refreshments.		
Course	<i>Singaporeans / PR Sponsored by SMEs @ 70%</i>	<i>Singaporeans / PR Sponsored by non - SMEs @ 50%</i>	<i>Singaporeans / PR Mid-Career @ 70%</i>

WSQ Respond to Fire Emergency in Buildings (2 Day)

Accredited by SCDF: 20 CPD Points Accredited by WSHO: Nil
 WSQ module [Course Ref Number: TGS-2915500258; Course Code: PI-CP-103E-1

Course Overview & Aim

Recommended Course for RT and SIC (Tier 2 premises which store less than 5 metric tonnes of Petroleum & Flammable Materials)

The 2-day course will provide members of the Company Emergency Response Team (CERT) in the Public and Industrial premises with Fire Safety Manager and store less than 5 metric tonnes of Petroleum and Flammable materials with the essential knowledge and application skills to function as a member of an emergency response team. It equips the team to implement the emergency response skills during an emergency incident in buildings. This training covers basic firefighting, rescue techniques and procedures as a CERT member that can be utilised during an emergency.

Course Content

- Interpret emergency response legislations and guidelines
- Identify fire hazard scenarios and usage of fire protection system in buildings
- Demonstrate use of breathing apparatus according to BA wearer guidelines and entrapment procedures
- Assess the emergency situation and conduct firefighting to contain fire in high rise buildings
- Participate in rescue and evacuation exercise
- Hand over incident and provide operational assistance to the appropriate authorities

Target Audience

Response Team members and Site Incident Controller (SIC) from public and industrial workplaces who are the first responders for incidents in premises with Fire Safety Manager and store less than 5 metric tonnes of Petroleum and Flammable. Persons who want to be recognised as a competent person applying emergency response skills during an emergency incident in buildings.

WSQ Respond to Fire Incident in Workplace (1 Day)

Accredited by SCDF: 10 CPD Points Accredited by WSHO: NIL
WSQ module [Course Ref Number: TGS-2015500229; Course Code: PI-CP-104E-1]

Course Overview & Aim

Recommended Course for RT and SIC (Tier 3 premises which do not require P&FM License)

The 1-day course will provide members of the Company Emergency Response Team (CERT) in the Public and Industrial premises (without or store below the exemption quantity of petroleum and flammable material) with the essential knowledge and application skills to function as a member of an emergency response team. It equips the team to implement the emergency response skills during a minor fire incident at their workplace. This training covers basic firefighting and procedures as a CERT member for workplaces that can be utilised during an emergency.

Course Content

- Interpret emergency response legislations and guidelines
- Identify fire hazard scenarios and conduct situation assessment
- Demonstrate usage of fire protection systems in the workplace
- Respond to fire incidents using various extinguishing mediums
- Hand over incident and provide operational assistance to the appropriate authorities

Target Audience

Response Team members and Site Incident Controller (SIC) from public and industrial workplaces who are the first responders for incidents in premises classified as Public and industrial buildings without or store below the exemption quantity of petroleum and flammable materials. Persons who want to be recognised as a competent person applying emergency response skills during an emergency incident in workplaces.

WSQ Implement Incident Management Processes

Run 144:24 July 2024

Run 146:18 Sept 2024

Run 148:27 Nov 2024

Run 145:28 Aug 2024

Run 147:23 Oct 2024

Run 149:18 Dec 2024

Course Overview

This course is designed to equip participants from various industries with CERT team with skills and knowledge to manage their incidents effectively at their premises as a Site Incident Controller (SIC).

Aim of This Course

This competency unit covers the skills and knowledge required by the person in charge of a facility to implement the incident management process during an emergency incident. This unit covers the approach, structure, tools, processes, communication methods that can be utilised during an incident.

Course Content

1. The implications of statutory and organisational requirements.
2. Standard operational requirements.
3. The value of a well written Incident Management Plan.
4. The functional approach to Incident Management.
5. Characteristics of the plant, equipment and facility and associated facilities during emergency situations.
6. Importance of maintaining effective communications (fixed or mobile) with relevant personnel (supervisors, operators, etc).
7. The roles and responsibilities of Incident Management Team members.
8. Command and control principles and techniques.
9. Types of Incident Management tools and resources.
10. Types of appropriate emergency response equipment.
11. Incident mitigating and suppression techniques and strategies.
12. Transition from mitigation operation phase to recovery phase.
13. Emergency response evaluation and debriefs.
14. Identification and communications to relevant stakeholders and government agencies.

Online Registration:

1. Run 144 (24 July 2024)
2. Run 144 (24 July 2024)
3. Run 145 (28 Aug 2024)
4. Run 146 (23 Oct 2024)
5. Run 147 (27 Nov 2024)
6. Run 148 (18 Dec 2024)

<https://form.jotform.com/acertsadmin/course-registration-form-IIMP2024>

Who Should Attend?

This course aims to prepare the appointed **Site Incident Controller (SIC)** with the skills and knowledge to implement the incident management process. It is targeted at individuals who are currently supervisors or senior technicians from all sectors such as:

- Process Industry
- Hospitality Industry
- Healthcare Industry
- Construction Industry
- Retail Industry
- Commercial Industry

The competency unit would be appropriate for those with operational responsibilities.

Course Fees and Funding

S\$420per pax (A-CERTS Members only); S\$450per pax (non-A-CERTS members). *Course Fees—no GST, includes training materials, lunch and refreshments.*

Funding for Singaporeans / Permanent Residents (refer to www.skillsconnect.gov.sg for more details of your funding level)

All Singaporeans aged 25 and above can use their \$500 SkillsFuture Credit from the government to pay for a wide range of approved skills-related courses. Visit the SkillsFuture Credit website (www.skillsfuture.sg/credit) to choose from the courses available on the Training Exchange course directory.

Course Duration: 1 day (8 hours)

Mode of training: Classroom

**Details may be subjected to changes. All decisions made by the organiser is final.*

No refund for cancellation but replacement is allowed at no further charge, restricted to the same run. T&Cs applies.

Venue: Singapore Polytechnic Graduates' Guild (Please refer to A-CERTS Website)

Site Main Controller Training: Undertake Incident Management Process

Course Overview

Site Main Controller (SMC) is the senior member of the company's management and will be the overall person -in-charge of emergency response operations in the company during an emergency. SMC will also deal with the government agencies during the event. In order to do that, SMC needs the skills to conduct Incident Management. These sets of skills can consist of appreciation of situation, emergency scene management, developing Contingency Planning (CP) for High-Risk Installations, understanding the SCDF Incident Management System and managing information management during emergencies.

Aim of This Course

This comprehensive training will equip the participants the foundational knowledge and skills to handle the major responsibilities of a SMC, in the event of an emergency. The training is based on the principles of Incident Management relative to emergency preparedness and adapted to the Singapore context. All participants will have in-depth training on incident management and practical practice through scenarios-based exercises.

Course Content

- Understand emergency response principles and processes
- Understand the roles and responsibilities of EMT, SMC & CERT
- Functional approach to incident management
- Appropriate tactics for emergency operations

Applicable Skills

- Understand incident management and its application at the various levels of incident
- Ensure the basic setup for performing the role of SMC is in place and the support systems needed to perform the job are addressed
- Describe the key characteristics of the SMC and develop strategies for adopting these characteristics
- Identify the various phases of emergency management and what is required of SMC in each of these phases
- Determine the necessary resource requirements and documentations
- Create greater awareness of Incident Site Management and Control

Who Should Attend?

- This course is suitable for new personnel such as Site Main Controller (SMC) or new Crisis Management Team (CMT) member or Emergency Management Team (EMT) member.

Course Fees

- S\$440 per pax (A-CERTS Members only); S\$530 per pax (non-A-CERTS members) *Course Fees is all inclusive of taxes, training materials, lunch and refreshments.*

Certificate

Participants will be awarded a Certificate of Attendance by A-CERTS.

Venue: Singapore Polytechnic Graduates' Guild
